Subject: Region 3 Call

Elizabeth,

Just a heads up that Region 3 will be sending a note looking for times for a call to discuss the fate of MCHM in distribution systems, and possible byproducts from MCHM degradation, oxidation, etc. The Ft Meade lab has found some TICs, that may be byproducts of MCHM, but are still working on tentative identifications.

They also plan to invite Matthew Magnuson to participate on the call.

Thanks,

Steve
